Dear,

There's so much to tell about this place that I thought I'd send you the whole island to look at.

Catalina Island is only a half-hour ride from Los Angeles and the capital of the world. The official is so proud of the unusual variety of fish that he says it will appeal to everyone. They call it Fish that Feed on Fish. The Magic is that you can see the fish on your own boat. The sense of the dance at the Casino is also famous. This is where you get the famous meals for more than 50. You can go in a glass-bottom boat and watch the Submarine Gardens or swim with the whales and other sea life. Come out and see it some time.

Yours truly,

The UNOFFICIAL OLD ROUTE 66 MOBILE INFORMATION CENTER
(Piloted by) R. Waldmire

Will be passing through

SOMETIME AROUND VINTAGE, RUST-FREE, 1972 VW VAN — A VIRTUAL "BILLBOARD ON WHEELS"!
Will be heading, via peddling RT. 66 maps, bird's-eye view posters, prints & postcards (for nominal fees!), and dispensing bioregional information (for free!). Available (occasionally) for: jaw-boning, story-swapping, information-sharing & interviewing.

And remember, wherever you go, go safe, go slow, and make your plans to venture west, take the slow lane. It's the best, go get those kicks on old 66!

Small is beautiful • Old is beautiful • Slow is beautiful • Safe is beautiful
Dwight, Illinois

(Alt. 657 ft.) In this view facing north, the early built in 1932 as a Texaco station, the service is now Becker Marathon, owned & operated by Phil Becker & family, since 1963.

Adjacent to the station is an old block ice building. The original cottage-style station is still intact, & includes inside & outside restrooms with their original signs. A 2-bay garage was added to the station. During 66s "heyday" - in the 40's & 50's - the station stayed open 24 hours. So, go back in time, & gas up here!

Dwight - est. in 1854 when the Chicago & Alton R.R. arrived - features many 66-era structures, & an old brick downtown with the restored 1892 R.R. Depot. This peaceful town has 3 66 alignments to explore: the "city 66" alignment, which follows the tracks into town; the early 2-lane by-pass (1930s); & the 4-lane by-pass (1953).
The Statue of Liberty... is actually in New Jersey!
